Award-Winning Landscape Firm Celebrates 25th Anniversary Milestone

Wilton, CT - Hoffman Landscapes, Inc., high-end, award-winning landscape firm, marks a significant achievement within their industry with the celebration of their 25th anniversary this year.

“I am really proud of reaching this milestone,” says president Michael O. Hoffman, who founded the company in 1987 and has seen steady growth ever since. “People see our fleet of 60 trucks everywhere now because years ago we set out to develop a new kind of landscaping company, based on the highest level of professionalism in our field.”

Today the firm serves Fairfield, Litchfield and Westchester counties from three area locations in Wilton, Greenwich and Washington. Their 100+ employees include a national award-winning landscape architect department, specialists in heavy excavation, talented stone masons as well as the largest property maintenance work force in the three-county region.

Three decades ago Mike recognized that the region’s residential property base was changing. Newer high quality homes and ever-improving demographics meant that better quality landscaping, along with design/build services, were in demand. What has set Hoffman Landscapes apart and contributed to their success is their answer to that demand; an effective, synergistic combination of property maintenance and design/build capabilities.

Hoffman management has developed a strategy and organizational structure that encourages departments to look for additional ways to serve customers’ needs. Design/build project clients are introduced to the maintenance department for follow-up work. Every outdoor service is offered from traditional mowing and pruning to more specialized jobs like green and golf tee maintenance, fencing/automated gate repair, irrigation systems, swimming pool maintenance, plant care, and even outdoor party preparation services. Conversely, all maintenance clients receive regular updates on Hoffman design/build projects.

Hoffman managers and supervisors, plus a wide range of employees, often hold more than one degree or special certifications in turf care, horticulture care, landscape design, pest control, irrigation, arbor care, and even snow removal.

“Because we’ve been doing it for so long, we’ve become known for highly detailed and well-coordinated landscape appointments, such as outdoor rooms, custom pools and patios, or various outdoor areas that family and friends can enjoy,” says Mike whose roster today includes some of the most elaborate projects at the region’s most notable estates.

Hoffman Landscapes has been recognized many times for their outstanding landscape design and maintenance. For the past 10 years, the company has been honored annually by the Professional Landcare Network’s (PLANET) Annual Environmental Improvement Awards Program.
