

Hoffman gets 'green' award

Monday, 27 December 2010

Hoffman Landscapes at 647 Danbury Road recently won a Grand Award in Residential Landscape Management in the 41st Annual Environmental Improvement Awards, sponsored by the Professional Landcare Network (PLANET). This is Hoffman's eighth straight PLANET award, chosen from among thousands of companies nationwide.

The award acknowledged Hoffman's work on a two-acre property in Greenwich, creating an environmentally friendly canopy of plum and white birch and river birch trees around a pool. Among other work, Hoffman also planted the property with 2,000 annuals that mix with the mostly green base of perennials.

PLANET's Environmental Improvement Awards Program reflects the association's commitment to creating and preserving the beauty of a landscape. The program is designed to reward independent landscape, lawn care, and interior plantscaping professionals who execute superior projects.

Hoffman Landscapes has been in business for 24 years and also specializes in complete property management for lawns, as well as planting beds, gardens, trees and shrubs.
