HIT THE BOOKS

Sure we love our Kindles, but books — especially those that are hard-covered and leather-bound — are a joy. And there's no better way to treasure them than to display them in your own library (the room without the TV) in fine, furniture-quality cabinetry designed by Deane.

GO GREEN

Improve your game and your landscape in one fell swoop. Practice makes perfect, and now you can practice your putting at home. A backyard green from Hoffman Landscapes will not only improve your sinking skills and lend interest to your yard, but it will make your friends green with envy, too.

HAVE IT YOUR WAY

The sectional is back, thanks to Lovesac — and you can change it up any way you like: to suit your space or your friends (even how close you want to sit to them). While Lovesac's modular seating is great for entertaining, it's also perfect for kicking back.

JUST ADD ICE

We love the fascination with retro cocktails, a la *Mad Men*. It's a throwback to a simpler, more sophisticated time. Nest Inspired Home has everything you need to do it right — from vintage barware to a classic bar cart. We favor glass shelves, but you can get one in any style. Here's looking at you!
